Phase Zero: Getting the Research Question Right

Kevin P. Weinfurt, PhD
James B. Duke Professor of Population Health Sciences
Duke University School of Medicine

NIH PRAGMATIC TRIALS COLLABORATORY
Rethinking Clinical Trials®

Panelist

- **Kevin McLaughlin, DPT**
  Co-PI: ARBOR-Telehealth
  Johns Hopkins University

- **Kushang V. Patel, PhD, MPH**
  Co-PI: AIM-CP
  University of Washington

- **Andrea L. Cheville, MD**
  Co-PI: NOHARM
  Mayo Clinic

- **Gregory E. Simon, MD, MPH**
  PI: SPOT
  Core Lead: Health Care Systems
  Interactions Core
  Kaiser Permanente Washington Health
  Research Institute

NIH PRAGMATIC TRIALS COLLABORATORY
Rethinking Clinical Trials®

Session Goals

- Understand how to align a research question with patient and healthcare system priorities to address urgent healthcare issues and generate actionable evidence

- Identify considerations for crafting a research question that will help decision-makers address the pressing healthcare issues of today in complex and evolving systems
