

Getting the *Right* Evidence to Decision-Makers *Faster*: Insights From the NIH Pragmatic Trials Collaboratory

A VIRTUAL WORKSHOP

Join us for a workshop over 2 half-days to explore the critical cycle of evidence generation to decisions by health system leaders to implement the findings of pragmatic clinical trials (PCTs). This virtual workshop will be held on June 20 from 11:00 a.m. to 3:00 p.m. ET and on June 21 from 10:00 a.m. to 2:00 p.m. ET. The series will include a keynote and 4 moderated webinar discussions with panels of experts that will focus on how health systems use evidence from ePCTs, how we generate the right evidence to support decision-makers, learning faster, and potential structures and incentives for learning faster.

Day 1: June 20, 11:00 a.m. – 3:00 p.m. ET
