

# LIRE-Data Sharing

“Data we can touch”

- Clinic ID, coded patient and provider ID with limited demographics
- Patient-level healthcare utilization:
  - In/Outpatient visits (ICD10 codes), dates
  - Procedures (CPT codes), dates
  - Image report text
- Pharmacy (NDC codes, dates)

# LIRE-Data Sharing

“Data we can keep”

- No site restrictions on data retention
- Plan to keep coded patient-level analysis data set:
  - Convert dates of service into days since baseline image
  - Code clinic ID
  - Enhancements using external databases

# LIRE-Data Sharing

“Data we can share”

- Potential options:
  - Coded patient-level analysis set (5Gb)
  - Coded provider-level analysis set (10Mb)
  - Coded clinic-level analysis set (500k)
- Data dictionary and design document
