

Co-Chairs:

- Christy Zigler, PhD, MEd
- Emily O'Brien, PhD

Patient-Centered Outcomes Core

Mission

- Define best practices for:
 - Selecting, compiling, and curating appropriate PRO measures
 - Developing new instruments when needed
 - Creating efficient, quality data collection systems compatible with EHRs

Meeting Schedule

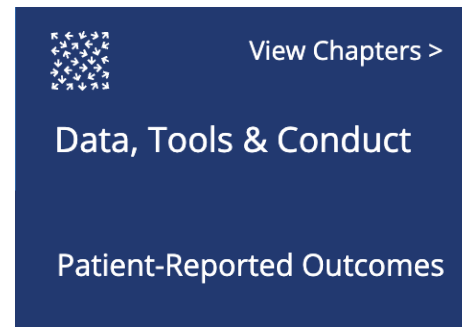

Monthly

Second Wednesday

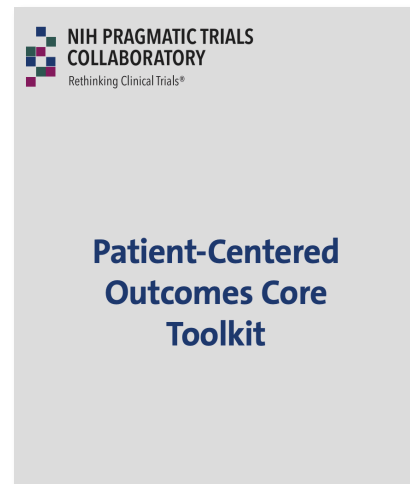

Patient-Centered Outcomes Core: Key Resources

- Report on methodology for capturing patient-reported health data
- Living Textbook chapter, including case studies
- Toolkit to support the capture of PROs
- Collecting PROs in EHRs
 - Users Guide
 - Lessons learned publication

Collecting patient-reported outcome measures in the electronic health record: Lessons from the NIH pragmatic trials Collaboratory

**Users' Guide to Integrating
Patient-Reported Outcomes in
Electronic Health Records**

FULL TEXT ARTICLE
Applying patient-reported outcome methodology to capture patient-reported health data: Report from an NIH Collaboratory roundtable  

Discussion

Can we help with?

- Selecting PRO measures
- PRO collection methods (including in the EHR)
- Cultural and linguistic adaptation
- Acceptability/burden of PROs

**NIH PRAGMATIC TRIALS
COLLABORATORY**
