

Panel 5: Stakeholder Reactions Panel Discussion

Please submit questions for the panelists to:
PragClinTrialsWkshp@nih.gov

**What have you heard today
that aligns with the strategic
goals of your organization?**

What did you learn that would get the attention of system leaders?

What did you learn about what researchers and system leaders need to do differently during the conduct of the trial to support a learning health care system?

What are some of the dissemination or sustainability resources that funders or systems can provide to support dissemination and implementation?

What tools/products/processes did you learn that PCTs should create during the trial to achieve implementation of the results into routine care?

What were some surprises that you didn't expect that you learned from the panel presentations?

What lessons did you learn about how researchers and system partners can adapt to the ever-changing environment with changing goals and priorities?
