

11th Annual Conference on the Science of Dissemination and Implementation in Health

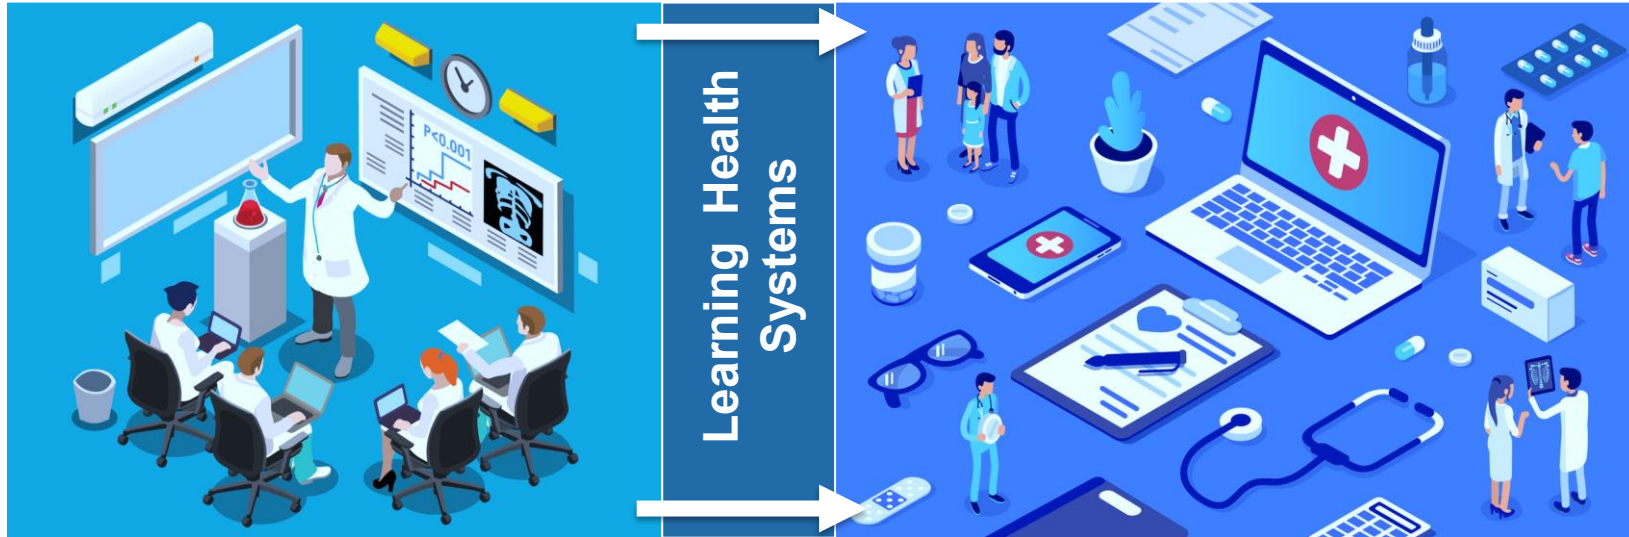

Co-Hosted by the National Institutes
of Health and AcademyHealth

How learning health systems can make real the promise of embedded pragmatic research

Leah Tuzzio, Amy Kilbourne, Katie Coleman, Christian Helfrich
Wednesday, December 5, 2018 8:15 – 9:45 AM

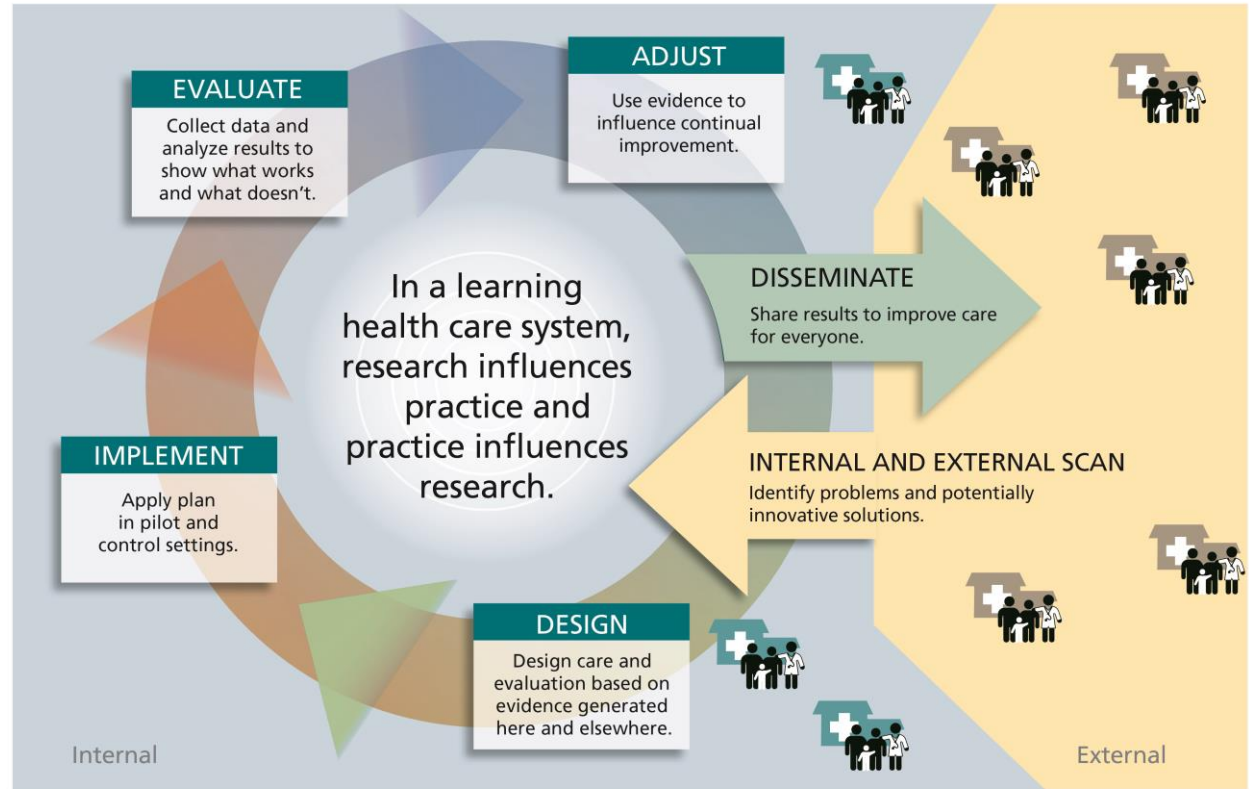

A new context for translating evidence into everyday practice

11th Annual
Conference on the Science of Dissemination
and Implementation in Health

What is a learning health system (LHS)?

Greene, SM et al. Annals of Internal Medicine (2012)

**11th Annual
Conference on the Science of Dissemination
and Implementation in Health**

LHSs: Where research meets clinical practice

Studies occur in everyday practice settings.

Scientists, clinicians, and administrators work together.

EMRs that collect data during routine care.

How do LHSs and pragmatic research harmonize?

Study broad populations and relevant questions

Align research with health system goals

Turn evidence into sustained improvements

Reduce delays in translating research into better health

Overview of panel presentations

11th Annual
Conference on the Science of Dissemination
and Implementation in Health
