Bioethics Supplement ▸ RoMPGroupPage

Welcome to the Research on Medical Practice (RoMP) group Collaboration space.

RoMP group has developed 3 videos. The first video describes why doctors do not always know which medication or treatment to give a patient. The methods researchers use to compare medications or treatments are described in the second video. The third video explores how patients might be told about this research.

Topics Covered in "Which Medication is Best?"

- Influences on variation in usual medical care
- Doctors' uncertainty about usual medical care

Topics Covered in "Research on Medical Practices"

- Medical record review
- Randomization
